This Wednesday the year 4/5 class held their trade stalls as part of their unit of inquiry “How we organise ourselves” unit.

During the unit students learnt about Fair Trade, what imports and exports are and the kinds of products which countries import and export. The culmination of this unit was their trade stalls where students displayed the posters which they created based on a country’s imports and exports as well as producing an item made from a product which their researched country exports.

This was a massive success where $469.80 was raised! A huge thank you to the year 4/5 parents who helped supply the goodies that went on sale as well as helping to prepare the food on the day. It was fantastic to see the students working through math problems as they counted money, sharing their knowledge of different countries imports and exports as well as taking responsibility of making and selling their wares.

A big thank you to the rest of the school for supporting this event. The money raised will go towards the year 4/5 end of year excursion to the movies.
