The year 6/7’s have recently completed their ‘exhibition’ unit. This unit was from the transdisciplinary theme ‘How we express ourselves’ and had the central idea ‘Media and Advertising, in their many forms, influence how we think and the choices we make’. Students worked in small groups under the themes of print media, TV advertising, TV shows, social media/gaming and news media. Students were required to come up with individual lines of inquiry and key questions which they inquired into. Students then presented their research at the Exhibition night.
